BAJAZZO iNVASION

VISUAL THEATRE

An incendiary mixture of clownery, pantomime and magic – Three clowns and a magician transform chaos into art.

Bajazzo Invasion is an **artist's collective** consisting of Lukas Besuch, Bernd Busch, Merlin Pohse and Alexander Merk.

The current show had its world premiere at the 2024 **Festival Off Avignon** in France. The ensemble had a guest residency at the festival for three weeks and enjoyed great success with audiences.

The idea for the show came about by chance in 2018 during the Milan Clown Festival. It was given its premiere in **Vienna** in 2021.

After an extraordinary summer of stage performances in 2024 at the legendary festival in Avignon, Bajazzo Invasion is taking the show on tour so that audiences all over the world can get to see it live!

All four of the artists are very experienced festival performers, with guest appearances in countries including France, Switzerland, Austria, Mexico, Denmark, South Korea, the Netherlands, Morocco, Belgium, Liechtenstein, Turkey, Slovakia, Italy among others.

The show is a non-verbal performance.

Spectacular crash landing in the theatre

Having emerged unscathed after a **dramatic crash** in their rusty aeroplane, the artists embark on a thrilling, modern stage spectacle. As our intrepid troupe repair their damaged plane, the audience is treated to a fast-paced show full of fun, music and a hilarious battle for the audience's favour which even leads to the impromptu creation of an orchestra.

No words needed: their language is laughter.

This show is an entertaining adventure that wins the hearts of the audience, taking them on a journey full of creativity and shared enjoyment. A bit trashy, outrageously funny, fabulously incorrect and at times bizarre!

A modern clown spectacle for adults and of course for the whole family – Contemporary circus on a world-class level.
